The Story of JERO Chat App

Welcome to JERO Chat App - a revolutionary cyber-themed messaging experience designed to connect people in a secure, fun, and futuristic way.

This repository contains the official landing page and resources for the JERO app, hosted via GitHub Pages.

Chapter 1: The Vision

In a world of ordinary chat apps, JERO was born to offer something extraordinary:

- Total privacy

- Customizable experiences

- Cutting-edge features powered by AI and AR

- A platform that is not just a messenger, but a personal digital companion

Chapter 2: Core Features

- Secure Login & Authentication - One-tap access with privacy-first design

- Private & Group Chats - Real-time conversations, no compromise

- Media Sharing - Photos, videos, and files sent instantly

- Seen & Delivered Ticks - Stay informed, always

- Notifications - Never miss a message

- Encrypted Messaging - Your conversations, your control

Chapter 3: Premium Features

- Ghost Mode - Read messages secretly

- Cyber Filters & Voice FX - Personalize your interactions

- AI Chat Assistant - Your AI-powered helper

- Disappearing Messages - Automatic privacy for sensitive chats

- Private Vault - Store your files safely

- Full Chat Customization - Themes, bubbles, wallpapers

- XP Unlock System - Gamified experience with rewards

- AR-powered Stories - Interactive storytelling like never before
